What are the benefits of Interning at Magnet?

Though a cliché, our Interns don't fetch coffee and make copies. At Magnet you will gain experience working hands on with professionals in your field. You will be given high responsibility tasks such as contributing original writing, conducting outreach to potential clients and partners, and aiding in marketing campaign creation. All of our interns get a daily travel stipend, and many have gone on to do further work with the company or work for one of our contacts.
